The Power of Clean

## Scrubmaster B260 R

### Ready for big tasks

Large distribution centers, warehouses, manufacturing and industrial applications: The requirements placed on cleaning large areas are versatile. The PowerBoss Scrubmaster B260 R can therefore be flexibly upgraded with various attachments to extend its application options beyond just scrubbing. With its high performance and coverage of 92,000 ft<sup>2</sup> per hour and 68-gallon capacity, the B260 R can easily accomplish any large task.

**Simple to empty and maintain**  
Large quick drain hoses and no tools needed for daily maintenance and squeegee adjustments, ensures maximum performance

**Efficient Design**  
The Scrubmaster B260 R offers upfront operator visibility and operator on/off access on either side of the machine

**Different scrubbing units for every requirement**

From cylindrical brushes to 2-disc-brush units, right up to a 3-disc-brush unit with ideal power distribution that optimally protects the floor.

**Additional safety**

Equipped with an optional overhead guard, side bumpers and BlueSpot light, the Scrubmaster B260 R meets all requirements in terms of occupational safety, which is of particular benefit for applications in logistics and other major industries.

**From standard to heavy-duty applications**

In the field of professional floor cleaning, each job site comes with its very own challenges. Whether it is heavily frequented public areas, particularly complex floors, cleaning during running operations, or versatile production residues – the Scrubmaster B260 R easily masters every task, for instance with the pre-sweep/vacuum unit collecting loose dirt prior to wet-cleaning the floor, which makes laborious pre-cleaning unnecessary.

Scrubmaster B260 R	Cylindrical 42" Disc 42" and 48"
68 Gallon Solution Tank	●
