

CREATING A CLEANER, SAFER, HEALTHIER WORLD.

T20

HEAVY-DUTY INDUSTRIAL SCRUBBER

- Achieve excellent cleaning results in the harshest environments with aggressive scrubbing, chemical-free ec-H2O[™] and FaST® technologies, and Maxpro® hydraulic engineering
- Improve productivity with longer run times, easy brush changes, and quick recovery tank draining
- Lower your cost of ownership through innovative engineering that increases productivity and reduces service and maintenance

EXCELLENT CLEANING RESULTS AT A LOWER COST OF OWNERSHIP

From a heritage of exceptional engineering comes the new T20: an industrial scrubber that will streamline your cleaning operation and reduce cleaning costs without compromising safety or performance.

DRAMATICALLY LOWER YOUR COST OF OWNERSHIP

Tennant engineering innovations in hydraulic technology, tank clean-out, and engine access reduce maintenance costs and unproductive downtime.

INCREASE YOUR ENVIRONMENTAL SAFETY

Set a new standard of safety while minimizing the risk of damage to your machine and facility with an ergonomically designed operator compartment, heavy-duty frame with Grip-N-GoTM rollers, and ec-H2OTM and FaST® technologies for drier, safer floors.

IMPROVE YOUR PRODUCTIVITY

Longer run times, easy brush changes, and quick recovery tank draining make the T20 a machine you can depend on every day of the week.

TENNANT TECHNOLOGIES SUSTAINABLE SOLUTIONS

INCREASED SAFETY

- FaST® Foam Scrubbing Technology NFSI-certified to increase floor traction
- **ErgoSpace** operator compartment improves visibility
- **Grip-N-Go™ corner rollers** facility and machine protection
- Triple-sealed electrical connectors UL-certified system protection

REDUCED COSTS

- ec-H2O[™] technology no chemicals, uses 70% less water
- On-board diagnostics quick, easy maintenance
- No tool brush change operators can spend more time cleaning

MAXIMUM PRODUCTIVITY

- ES® Extended Scrubbing with detergent metering clean 3 times longer on a single tank
- EasyOpen[™] service access minimum maintenance, maximum uptime
- **Touch-N-Go**[™] operation reduced training, increased productivity
- Hygenic® tanks minimum downtime with easy access for cleaning
- Variable Drain Valve[™] no fuss, no mess

EXCLUSIVE TECHNOLOGIES (optional cleaning innovations)

All technologies increase scrub time up to three times using a single tank of water.

ec-H2O[™] technology

electrically converts water into an innovative cleaning solution that cleans effectively, saves money, improves safety, and reduces environmental impact compared to daily cleaning floor chemicals.

FaST® Foam Scrubbing

Technology uses up to 70% less water and 90% less chemicals to improve floor traction as certified by NFSI, helping reduce the risk of slip and fall accidents.

ES® Extended Scrubbing

productivity enhancement system recycles cleaning chemicals to increase uptime and improve productivity by scrubbing floors using 66% less chemicals than traditional cleaning methods.

INSIDE THE

T20

- Reduce training time with the Touch-N-Go™ control panel featuring 1-step™ scrubbing.
- Maximize productivity with cylindrical brushes and EZ-Remove™ debris tray.
- Maximize water pick-up and reduce maintenance time with the DuraTrack™ squeegee with SmartRelease™.
- Count on durable, steel frame and Grip-N-Go™ corner rollers to withstand the toughest environments.
- Quickly and easily clean solution and recovery tanks with easy-access Hygenic® tanks.
- Reduce environmental impact with ec-H2O™ or FaST® technologies.

COST-FFFICIENT AND PRODUCTIVE

- **EasyOpen™** service access takes you quickly, easily into the heart of the T20, reducing service time and maintenance costs.
- **EZ-Remove™** debris tray glides in and out on wheels, improving productivity by relieving operators of strain during transport and dumping.
- Achieve outstanding cleaning results in the harshest industrial environments with dual cylindrical brushes or three gimblemounted disk brushes for aggressive cleaning.

OPTIMIZE CLEANING PERFORMANCE WITH TENNANT TRUE® PARTS AND SERVICE

Maximize the uptime and life of your Tennant equipment with Tennant *True* parts and service. Benefit from the unmatched knowledge of our team of over 400 factory trained and certified Tennant Service reps. Improve productivity with quality parts and supplies that are designed to enhance equipment results. Depend on Tennant *True* parts and service to help you maximize the effectiveness of cleaning operations.

Widen the cleaning path from 40 in / 1020 mm up to 54 in / 1370 mm. Improve edgecleaning and maximize productivity with an optional side brush.

Improve cleaning results.

Spot clean hard-to-reach areas with the 15 ft / 5 m spray hose.

Protect your T20 – and your facility. Shield squeegee from backing into structures or hooking onto obstacles with rear and side steel guards.

ENVIRONMENTAL STEWARDSHIP

ec-H2O™ and FaST® technologies are NFSI (National Floor Safety Institute) Certified. NFSI certified products must pass a 2-phase wet slip resistance process and have been shown to reduce the potential for slip-and-fall accidents.

ec-H2O and FaST technologies are registered by NSF International.

NSF International is an independent, not-for-profit organization that ensures formulation and labels on these products meet appropriate food safety regulations.

ec-H2O and FaST technologies may contribute to LEED or **LEED-EBOM (Existing Building:** Operations & Maintenance) points, provided other appropriate criteria are met. For more information on obtaining LEED points, please contact your sales rep or refer to the USGBC website at: www.usgbc.org.

FaST is a Green Seal (GS-37) Certified Detergent. Green Seal evaluates and certifies cleaning products based on criteria such as the toxicity of the product, skin and eye irritation, skin sensitization, combustibility, toxicity to aquatic life, and packaging.

Choose GE Capital, U.S. Bancorp, or All-Line Leasing for simple, quick financing with flexible upgrade options.
