PHOENIX 26 SUPER SPORT | HEAVY DUTY SCRUB & POLISH

PHOENIX 26 SUPER SPORT

PRODUCT FEATURES

The Phoenix 26 SUPER SPORT offers performance based features that make this compact scrubber productive, durable and cost effective. Aggressive scrubbing, dry floors and 20% water savings, are major difference makers for getting the job at hand done quickly and with professional results. Our two speed brush motor allows for daily scrub operation in standard RMP mode or the manager lockout key switch can be turned to activate the high RPM mode for heavy duty scrubbing or stripping of wax. This high speed motor also allows for use of the **Power Polish** system. Using a series of powerful brushes you can cost effectively produce that professional floor finish. Call us for your free on-site demonstration today.

FEATURES	BENEFITS
Super Scrub & Polish (SSP)	A lockout key switch allows for the choice of lower RPM maintenance scrubbing or turn the key for high speed RPM super scrub, stripping or polishing, one machine allowing for many cleaning functions.
Polish Package	Revitalize your floor using our Power Polish series of brushes to produce amazing results.
Exceptional Water Recovery	The combination of quality urethane squeegees and an exceptional vacuum produces a completely dry, clean surface.
"Aqua-Stop" Water Savings	The scrub brush or pad is encapsulated with a ring which retains the water/chemical longer producing a 20% water/chemical savings. An additional benefit is the labor savings received by reducing trips to fill and dump tanks.
Quality Where It Counts	The lid for the recovery tank must be sealed to have excellent vacuum. Our lid has a captured rubber gasket that will not absorb water and chemical then breakdown and compromise the vacuum. Our gasket can be removed cleaned and re-installed for consistent performance.
Easy-to-Use	Operators will understand the operator controls giving them the confidence to produce professional results.
Ergonomic Heavy-Duty Design	Adjustable speed controller, ergonomic hand bails, low profile offset scrub head offers superior handling and improved productivity.
On-Board Charger	Offers the ease and convenience to simply remove the plug from the side of the unit and plug into the nearest outlet saving space and time.

Aqua-Stop Technology is a thin rubber strip surrounding brushes that have been introduced and implemented at Minuteman. This water and chemical reduction factor translates into economic gains for our customers as well as environmental benefits to display the overall effectiveness of Aqua-Stop.

PHOENIX 26 SUPER SPORT TECHNICAL DATA	
Scrubbing Style	Disc
Scrub Path	26"
Sweep Capable	No
Power Source	24 volts
Brush Motor Power	.75 hp (1)
Brush RPM	180 & 380 RPM
Brush Pressure	1 Setting
Solution Capacity	13 gallon
Recovery Capacity	12 gallon
Scrub Brushes	13" Disc (2)
Theoretical Productivity	34,445 ft ² /hr

GREEN FEATURES

- SOUND LEVEL <= 70DBS
- 20% WATER SAVINGS
- 20% CHEMICAL SAVINGS

OPTIONAL MAINTENANCE-FREE GEL BATTERIES
