Low profile scrub deck cleans tight against edges, in corners, and under obstacles. The unique splash skirt surrounds scrub head to control over spray, conserve water and improve cleaning.

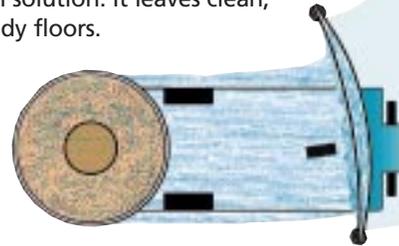

Unique tank design channels air flow to separate water from air and reduces foaming. The ball float designed prevents solution or foam from flowing into vacuum fan.

0-95 lbs. of adjustable pad down pressure for light to heavy scrubbing applications.

Brush or pad change quickly and easily accomplished with unique no-touch plunger release.

Unique parabolic swing squeegee tracks the scrubbing path on turns to contain solution. It leaves clean, traffic ready floors.
