

Minuteman®

X250/X380 Series

Twin Motor Industrial Vacuum w/HEPA Filter

FOR HIGHER VOLUME, HAZARDOUS MATERIAL RECOVERY

Both Minuteman Twin Motor Vacuums feature powerful Ametek-Lamb motors mounted on a 55 gallon drum lid assembly. Each model includes a single H.E.P.A. (High Efficiency Particulate Air) filter using COPOLM™ (CoPoly Laminated Media), a Minuteman exclusive. In addition, our multiple filter system helps extend the life of the H.E.P.A. filter.

As a dry unit, the high CFM combined with the large 55 gallon drum container make either of these units an ideal choice for the safe recovery of most dry, hazardous dusts and nontoxic fine powders, including: lead paint, dust asbestos, silica sand and many others. And when converted to a wet unit, these vacuums can be used for many applications involving contaminated water and other liquids. (Wet conversion results in a smaller overall volume pickup ability).

As with all Minuteman Critical Filter Vacuums, our H.E.P.A. filters meet all applicable military and ANSI specifications. All H.E.P.A. filters have an efficiency of 99.97% at 0.3 microns.

* Optional Transfer System (shown) with a transfer lid, 55 gallon drum and dolly cart. A wide variety of hoses, tools and accessories are available.

SPECIFICATIONS

Models	Amps	Type	HP	Tank Size	CFM	Lift
C81455-03 X-250	11*	Dry	(2) 2.0	55 gal	200	105"wg
C81455-05 X-250	11*	Wet/Dry	(2) 2.0	35/55 gal	200	105"wg
C80355-04 X-380	15**	Dry	(2) 1.25	55gal	190	85"wg
C80355-05 X-380	15**	Wet/Dry	(2) 1.25	35/55 gal	190	85"wg

* Dual power cord - 11 amps for each cord.

** Single power cord - 15 amps total.
