WHY THE K900?

1 Smart Navigation

The K900 is equipped with Lidar, 3D sensors, and intelligent navigation systems that enable it to scan, interpret, and adapt to its environment with high precision.

2 Hard-To-Reach Areas

Compact profile and circular brushes help reach under racks, conveyor systems, and tight spaces.

3 Vision System

A vigilant 2D LiDAR 'crown' calculates distances in a 270-degree radius, and 3D camera fills in the lower blind spots.

FEATURE SPOTLIGHT

Automatic Filter Cleaning

Patented self-cleaning filtration helps reduce dust levels, cut maintenance and keep performance high.

CHALLENGES SOLVED.

Smarter Sweeping. Fewer Interruptions

Labor Pressure

Free teams from repetitive sweeping.

Dust & Debris

Control fine dust before it spreads.

Restricted Zones

Adapt around no-go areas & obstacles.

Reliable Results

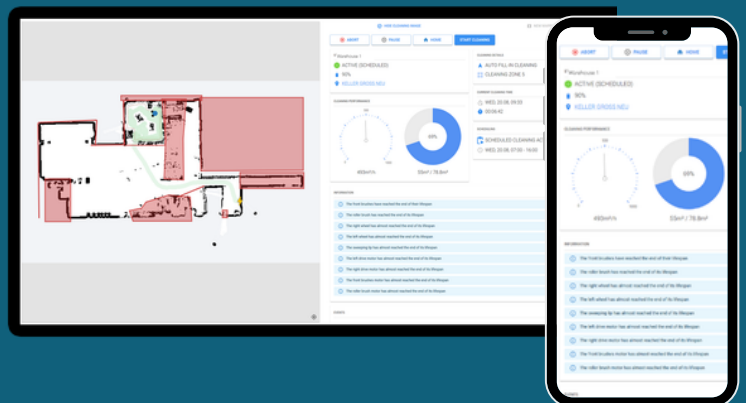

Repeatable routes & digital reporting.

Kemaro Web App + Cloud Sphere

Create cleaning tasks online and monitor schedules, maps, machine status and reports from any device.

- Remote maintenance + updates
- Digital reports with interactive maps
- Robot status, errors and position
- Custom zones and cleaning tasks

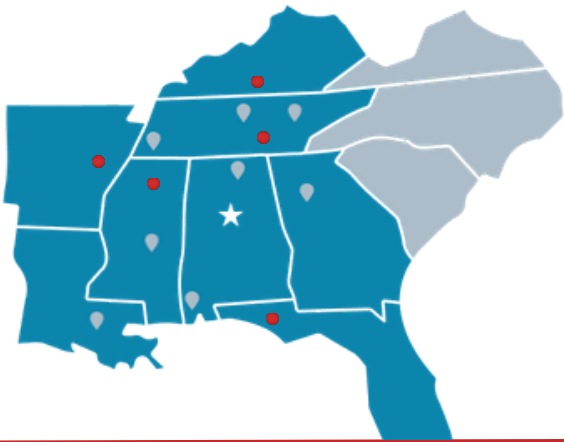

WAREHOUSES • MANUFACTURING • DISTRIBUTION • LOGISTICS

WHO WE ARE.

Southern Sweepers & Scrubbers delivers the best in industrial floor cleaning equipment, plus everything that keeps it running.

All backed by brick-and-mortar locations across the Southeast, so local equipment, parts, and service are never far away.

In-House & On-Site Service

Our fully stocked service vans carry diagnostic tools, manuals, and common parts to keep your machines running. With 40,000+ parts available for most brands, we get you what you need, fast.
